### Student Engagement: A Survival Guide

Dr. Whitney Berry is an instructor at the University of North Dakota where she teaches Fundamentals, Music Theory and Aural Skills. Her work focuses on active learning techniques and games-based instruction. Her active learning techniques have been published in *College Teaching*, and more recently in an invited book chapter. She is known for her high energy and engaging presentations.

### Shifts and Slides Presentation

Dr. Robert Hodson has presented research at many regional, national, and international conferences. His book *Interaction, Improvisation, and Interplay in Jazz* (Routledge, 2007), draws upon semiotics, linguistics, and phenomenology to explore the interactive processes that occur between simultaneously-improvising jazz musicians and the effects that these interactions have on the individual improvisations.

### HORNZZ Performance

Led by Craig Hurst, HORNZZ is an eight-piece jazz powerhouse playing Latin, funk, fusion and straight-ahead jazz. Craig is Emeritus Professor

of Music at UW-Milwaukee at Waukesha where he directs The Windy Hill Symphonic Band.
